SUMMARY

Energetic Junior Software Developer with a passion for technology and a drive for continuous learning. Proven expertise in full-stack development, agile methodologies, and collaborative team projects. Proficient in TypeScript, JavaScript, CSS, HTML and React.js as a web framework. Skilled in problem-solving, object-oriented programming and UI/UX. Seeking an opportunity to contribute to a dynamic team environment, take on new challenges, and enhance technical skills while supporting the development and maintenance of innovative applications.

EXPERIENCE

Full-Stack Software Development Graduate

Boolean Uk

- A full-time 6-month coding academy focusing on full-stack development using JavaScript, React, CSS, PostgreSQL, Prisma.
- Learned how to turn user requirements into quality software, designed and implemented features building a scalable application on a 4-week team development project working with the rest of my class on an existing codebase.
- This let us practice Kanban and agile with stand-ups and retros as well as best practice around branching, merge conflicts, and pull requests.
